**SECRET**

13638

Chief, TIR

16 January 1950

Chief of Station, Karlsruhe

Herbert MODELHART

Ref. MGL-A-889, TAB Y

1. In reading through and carding the CIC Austria files pertaining to TIR, the item reported on MODELHART seemed a bit out of the ordinary. This was that he and his brother were picked up for having photographed electric transformers and installations in the American Zone of Austria and that they alleged this work was done on instructions from Otto.

2. The brother, Oskar MODELHART, is mentioned as a police contact by Otto in MGL-A-890 and as having a well-established net.

3. It appears odd that such a target would be given. You may feel that sometimes it would warrant investigation.
